

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTION.

This publication comprises the ordinances of the City of Hartford revised to October 1st, 1907. The revision of the ordinances is official. The charter is not official and is a compilation made originally in 1906 by Arthur L. Shipman, corporation counsel of the city at that date, and subsequently brought to date with the assistance of Lawrence A. Howard and James W. Knox of the Hartford Bar. This volume is published under the authority of the Court of Common Council of the City.

The compilers trust that, for practical purposes, this publication will be found far more convenient than reference to previous revisions, fragmentary pamphlets containing the ordinances and the various volumes of special laws.

It cannot be expected that this publication is entirely free of errors and omissions. The work, however, has been carefully done, and it is hoped that the volume is as free from defects as are most works of like character. The new arrangement of sections, with head notes or catch-words attached thereto, the compilers feel sure will be regarded as an improvement over previous arrangements of the charter and ordinances.

HARTFORD, June 1st, 1908.

The said board shall have power to make and alter, from time to time, all needful rules and regulations for the maintenance of order, safety, and decency in said parks, both within and without the limits of the city, and to affix penalties for disobedience thereto; which rules and regulations shall have the force of ordinances of the city of Hartford; provided,

that no such rule or regulation shall be of any effect unless it shall have been first approved by the board of aldermen, and then published in full in one or more of the daily newspapers published in Hartford, and also printed and posted in conspicuous places within the limits of the property to which such regulation is intended to apply. For the purpose of enforcing such rules and regulations, all such parks and property, whether within or without the limits of said city, are hereby placed under the police jurisdiction of the city of Hartford; and complaints for the violation of such regulations may be made by the prosecuting attorney to the police court of said city. Any member of the police department may arrest, without warrant in any of such parks or places, whether within or without the limits of the city of Hartford, any person who has broken any park rule, or committed any other offense in said park; and the police court of Hartford shall have jurisdiction of all misdemeanors committed within the limits of said parks.

No telegraph, telephone, or electric light wires, or other wires, or posts or supports therefor, shall be erected in, upon, through, or over said parks or park-ways, without the consent in writing of said board, who shall designate the place and the manner of erecting and maintaining the same, to be altered at such time and in such manner and under such conditions as the said board may deem best.

And within thirty days after the passage of this act, the mayor of said city shall submit to the qualified electors of the city the proposition to issue the bonds of the city to the amount aforesaid, the proceeds of the sale of which shall be exclusively applied, under the direction and at the discretion of the board of park commissioners, to the acquisition, layout, and improvement of land for public parks, park-ways, or boulevards established as approaches to or for the purpose of connecting parks, and for the other purposes set forth in section sixty-nine; but the said board shall make no expenditures of said proceeds, or contract of expenditure thereof, involving liability to the city of Hartford exceeding the amount of the bonds thus issued. Such election shall be conducted, and the result determined, as in other city elections.

Idem.

§ 73. Special tax for support of parks. For the purpose of providing necessary funds for the care and improvement of park property, and to meet the expenses of the board of park commissioners, the court of common council of the city shall, in each year, levy, and cause to be collected, a tax of not less than five cents upon each one hundred dollars of value of all the property within the city taxable for municipal purposes. All moneys collected and arising from the said tax shall be paid by the tax collector, or other officer collecting the same, into the treasury of the city; and shall be deemed, thereupon, appropriated and set apart for the maintenance, preservation, and improvement of said parks and grounds; and shall be paid out by the city treasurer upon warrants signed by at least three members of the said board of park commissioners.

Idem.

§ 74. Park-ways and boulevards. The said board of park commissioners shall have power to connect any public park under its control with any other park over which it has jurisdiction, by a boulevard or park-way; and whenever, in their judgment necessary, they may designate, as such, any existing highway, or parts thereof, which shall thereupon be deemed a part of said park-way;

but the same shall remain under the control of the city authorities now having jurisdiction thereof.

§ 75. Definition of "park property." The term "park property" includes all parks, squares, and areas of land within the management of said board; and all buildings, structures, improvements, seats, benches, fountains, boats, floats, walks, drives, roads, trees, plants, herbages, flowers, and other things thereon, and inclosures of the same; and all resting places, watering stations, play-grounds, parade-grounds, or the like; and all connecting park-ways and roads or drives between parks; and all avenues, roads, ways, drives, walks, with all trees, shrubbery, vines, flowers, and ornaments of any description; and all birds, animals, or curiosities, or objects of interest or instruction, and all tools and implements placed in or on any of such inclosures, ways, park-ways, roads, or places; and said included terms shall be liberally construed.

Idem.

§ 76. Members of park board prohibited from being interested in property or contracts connected with parks.

No member of the said board of park commissioners shall be concerned in any contract with the said board, or any of its departments or institutions, either as contractor, sub-contractor, bondsman, or party directly or indirectly interested. If any member of the board be the owner of, or interested in, any property necessary, in the opinion of a majority of the other members of the board, to be taken for park purposes, then proceedings shall be by condemnation, and such facts of ownership and interest shall be fully set forth in the petition.

1895.
12 S. L. 71.

§ 77. Board not compelled to accept gifts. The board shall not be compelled to accept any gift or offer of land which, in its judgment, is unsuited to park purposes, or the improvement of which would entail an injudicious outlay.

Idem.

§ 78. May lease property not needed for immediate improvement. The said board shall, at its discretion, have power to lease any buildings or land not needed for immediate improvements, for a term not to exceed three years; the proceeds to be paid

Idem.

into the city treasury, and to be placed at the disposal of the said board as an addition to the annual appropriation.

Idem.

§ 79. Trust property incidentally connected with parks to be under management of commissioners. Real and personal property may be granted, bequeathed, devised, or conveyed to the said city, for the purpose of the improvement or ornamentation of said parks or approaches, or for the establishment or maintenance therein of museums, zoölogical or other gardens, collections of natural history, observatories, monuments, statues, fountains, or other works of art, upon such trusts and conditions as may be prescribed by the grantors or devisors thereof, and accepted by the common council of said city. All property so devised, granted, bequeathed, or conveyed, and the rents, issues, profits, and income thereof, shall be subject to the exclusive management, direction, and control of the said board of park commissioners.

Idem.

§ 80. Powers of condemnation. The said park commission, on behalf of the city of Hartford, shall have power to take, by condemnation, land for park or park-way purposes; and if the said park commission cannot, for any cause, agree with the owner or owners of any land which they shall decide to take for public park purposes, whether within or without the limits of the city of Hartford, as to the compensation to be paid therefor, the damages which will accrue to such owner or owners by such purchase and the compensation to be paid for such lands in view thereof, shall be estimated and determined by three appraisers to be appointed by the superior court of Hartford county, or any judge thereof, on application of said park commissioners, after reasonable notice of such application shall have been given to such owner or owners. Said appraisers shall notify all parties in interest of the time and place of hearing, and shall make return in writing of their appraisal and award to the clerk of the superior court, who shall record the same; and the amount of such award shall be paid by said park commission within sixty days after the filing of such award, or, in case of an appeal, after the final award in the premises, out of any funds at their disposal, other than the annual appropriation, to the person or persons entitled thereto, or deposited to the order of such person or persons with the treasurer of the city of

Hartford. But either party may, within sixty days, appeal to the superior court, or to any judge thereof, to set aside such award, and to order a re-hearing for irregularity, or improper conduct connected with such hearing and appraisal. The fees of the appraisers and of the clerk shall be paid by the park commission from the funds aforesaid; and the lands embraced in the application shall not be occupied by the park commission, nor sequestered for park purposes, until the compensation therefor as finally awarded or agreed upon shall have been paid to the person or persons entitled thereto, or received to his or their satisfaction, or deposited with the treasurer of the city of Hartford to his or their use. All the owners of different tracts of land which are contiguous or which are to be included in the same park may be joined in the same application if convenient, and the court or judge may appoint a single board of appraisers to determine and award the compensation to be paid to the owners of each tract in the same report of their findings.

§ 81. Park bonds. How prepared and issued. The bonds authorized in section seventy-two shall be prepared by the city treasurer of Hartford, and shall be issued by him, from time to time, in such amounts as the park commission shall require. Such bonds shall in no case be sold or disposed of for less than par, and the avails of such as shall be issued shall be kept by the city treasurer as a special fund, subject to the order of the park commission, and shall be paid by him only on such orders.

8 S. L. 111.

§ 117. Cost of improvement ascertained before lay-out, manner of assessment. Before any public work or improvement, for the cost of which the city of Hartford under its charter

may assess benefits, shall be laid out or constructed, the cost of the same, including damages to be paid, shall be ascertained by the court of common council of said city, and all benefits to be paid by the persons benefited thereby, shall be ascertained as follows: The vote or resolution proposing the laying out or construction of such work or improvement shall be, by said court of common council, referred to the board of street commissioners of said city, who shall first estimate the cost of the construction of such work or improvement, and shall also appraise the damages to be paid to any person for land, or any interest therein, taken for such improvement, and shall also assess the said cost of construction, and the amount of said damages upon the persons benefited thereby in the manner now provided by the charter and ordinances of said city, and all appeals therefrom shall be taken, and all proceedings had thereon, as now by law provided. Upon the completion of such proceedings the board of street commissioners shall report the same to said court of common council with their recommendations, and said court of common council may thereupon direct the lay-out or construction of such work or improvement at its discretion.

7 S. L. 778.

§ 120. Diversion of streams not navigable. Whenever it shall be necessary for the proper construction of any bridge, sewer, culvert, highway, embankment, or other public work in the city of Hartford, or for the protection and security of any such public work already constructed, it shall be lawful for the court of common council of said city to direct, and for the board of street commissioners of said city to cause any stream or water-course, not navigable within the limits of said city, to be changed and diverted from its natural or present channel into a new or different channel.

Idem.

§ 121. Compensation. Before causing any stream or watercourse to be diverted as provided in the preceding section the said board of street commissioners shall agree with the owner or owners of any property or franchise, which may be required for the said purpose, as to the amount of compensation or damage to be paid to the said owner or owners for the same; and in case of disagreement between said board and any such owner or owners, as to the amount of such damage or compensation, then the same shall be appraised in the same manner as damages are now appraised for the laying out of highways in said city; and any person aggrieved by said appraisal, shall have the same right of appeal as is now had by parties aggrieved by the appraisal of damages in laying out highways in said city.

Idem.

§ 122. Sections above. The two foregoing sections shall not be so construed as to impose any new liability for damages upon the said city for any change in any watercourse, indirectly or necessarily resulting from the legal lay-out and construction of any public work already built or hereafter to be built.

§ 123. Power over streams, dams, etc., for sewerage and health.

The court of common council of the city of Hartford are hereby authorized, whenever in their opinion the public health or the proper sewerage of said city shall require such action, to take, occupy, and appropriate, in such manner as they shall from time to time deem expedient, any stream or part of a stream, natural or artificial, running in or through said city, and to straighten, deepen, or lower the same, or lower, alter, or remove any or all walls, dams, flumes, or other obstruction to the free and healthy flow of such stream or part of a stream, or raise any of said dams or build and maintain other dams where the public health or convenience may require, or to cover any such stream or part thereof by arches, culverts, or other structures, or to divert the water from such stream or part thereof and cause it to flow through a sewer or other aqueduct built in and upon the bed of such stream, or laid in the earth in or near either bank thereof, or to remove or cause to be removed or altered any or all structures which at any season of the year cause the accumulation of stagnant water, or interrupt in any manner the free and healthy flow of any part of said stream.

9 S. L. 419.

§ 124. Survey and estimates, notes and agreement as to damages.

Whenever said court of common council shall take action under the foregoing power, the vote or resolution proposing said improvement shall be referred to the board of street commissioners of said city, who shall prepare a descriptive survey of the improvement proposed, with a careful estimate of the cost of completing the same, and agree if possible with the parties interested upon the damages and special benefits on account of such improvement. They shall give notice ten days prior to the time appointed in said notice for said hearing in two daily newspapers published in said city, of a time and place for meeting all parties interested in said improvement, and if at such meeting no agreement can be made, said city may proceed in the manner provided in the next succeeding section. But if such agreement shall be made by said board and ratified by said common council, the sums agreed upon having been paid to the parties entitled thereto, or deposited to their credit in the city treasury, said city may proceed with and complete said improvement, and do all things necessary or convenient for that purpose without further liability.

Idem.

Idem.

§ 125. Condemnation and appraisal. If said board of street commissioners shall be unable to agree with the parties interested upon the damages or benefits to be paid on account of such improvement, the Superior Court for Hartford county may, on application of said city, after causing such notice to be given of the pendency of such application as such court shall order, appoint three judicious and disinterested freeholders of the county of Hartford to estimate the damages and benefits resulting from said improvement; and said committee having been duly sworn, and having given notice of the time and place of their meeting for the purpose aforesaid, by publishing the same not less than three times in two newspapers published daily in said city at least ten days prior to said meeting, shall meet at the time and place designated, and having heard all parties in interest who shall appear before them, shall determine what parties will be damaged by said improvement in excess of special benefits and the amount thereof; also what parties owning or interested in lands, easements, or franchises within a reasonable distance of said improvement will receive special benefit over all damage and the amount thereof; and also what parties will receive an equal amount of damage and benefit; and thereupon said committee shall report in writing to said court, which may confirm, correct, alter, or set aside said report, and decide all questions that may be raised in the proceedings. If said report shall be set aside, said committee, or a new one to be appointed by said court, shall proceed as before, and their report being finally accepted by such court shall be confirmed by the order or decree of said court; and said report and order or decree shall be recorded by the clerk of the Superior Court for Hartford county, and the award of damages and benefits therein contained shall be final between the parties, and said damages being paid or deposited as before provided, said city may proceed with and complete said public improvement, and do all acts necessary or convenient for that purpose without further liability.

Idem.

§ 126. Collection of benefits, liens, record of. All amounts due to said city as special benefits under the two preceding sections, whether reached by agreement or assessment, may be collected by warrant under the hand of the mayor or acting mayor of said city, directed to the collector thereof, who shall enforce the

same in the same manner as tax warrants are served and enforced. Every such amount shall also be and remain a lien upon the land or other property on account of which it was assessed, which said lien shall commence and attach to said land from the time the common council shall take action, laying out or ordering said improvement: *provided* that the same shall not remain a lien thereon for a longer period than three months after the final completion of said work or improvement, unless the board of street commissioners shall within that time lodge with the town clerk of the town of Hartford, for record, a certificate signed by the clerk of said board, describing the premises, the amount assessed, and the improvement for which it was assessed.

§ 127. Notice of payment of benefits. Upon the completion of said work or improvement, the said board of street commissioners shall give notice thereof, and that said benefits are due and payable, by publication twice in two daily newspapers published in said city, and all benefits assessed thereon shall be immediately due and payable. If the actual cost of the construction of such improvement or public work shall be less than the sum assessed upon the parties benefited, each of the parties so assessed shall be entitled to a proportionate deduction from his assessment.

Idem.

§ 128. Assessment for public improvements on land not abutting; right of appeal. The court of common council of the city of Hartford, by the board of street commissioners of said city, may assess a proportional sum of the expense of laying out, altering, and making any highway, street, sewer, or park, lawfully laid out or altered, upon any person or persons in the judgment of said board specially benefited thereby, whether the land of such person or persons abuts upon such highway, street, sewer, or park, or not.

1872.
7 S. L. 378.

This section shall not affect the right of appeal from the action of said board.

§ 129. Appeals, where to be taken and to whom. An appeal shall be allowed to any person aggrieved by any appraisal of damages or assessment of benefits to the judge of the court of common pleas for the county of Hartford. Such appeals may be heard by said judge, but shall upon the motion of any party

§ 130. Joinder in appeal: one cause. As many of the parties interested as may choose to do so, may join in such appeal; and, when separate appeals are taken by different parties from one assessment and appraisal, all such appeals shall be heard and tried as one cause.

Idem.

§ 131. Appeals, how taken. Appeals may be taken from the assessment of benefits only, but, if taken from the appraisal of damages shall be from the said appraisal and also from the assessment of benefits made at the same time and for the same public work. Such appeals shall be taken within ten days after public notice shall be given of such appraisal or assessment, and shall be by a suitable petition in writing, setting forth the whole of said assessment or appraisal and assessment appealed from, and asking for a reappraisal and reassessment, or for a reassessment only, with a citation attached thereto, signed by any authority authorized to sign writs, and returnable before said judge at two o'clock in the afternoon on the day three weeks subsequent to the day on which public notice of said appraisal shall have been given; and said citation shall be served upon the clerk of said city at least six days before the return day thereof.

Idem.

§ 132. Reapportionment. If, upon the hearing of any appeal, the judge or committee shall find cause to alter said appraisal and assessment, or assessment of benefits only, then said judge or committee shall proceed to reapportion the whole amount of the damages and benefits, or benefits only, upon the persons or land specially benefited. If the judge or committee hearing said appeal shall be of the opinion that persons other than those who appear upon the record are interested in the subject-matter of said appeal, said judge or committee shall cause the appellants to give notice of the pendency of the proceedings to such other persons; which notice shall be by publication in one or more newspapers published in said city, for such time and in such form as said judge or committee shall direct. Such judge shall have, for the purpose of disposing of said appeal, all the power of the Superior Court, and may

render judgment thereon, and may tax costs in favor of either party and issue execution for said costs, to be taxed as upon civil process in the Superior Court. Said judge shall, when the proceedings in any case arising under this and the preceding three sections are closed, return all the papers connected with the case to the clerk of said city, to be by him kept on file.

§ 133. Benefits set off against damages. In all cases where the court of common council of the city of Hartford shall have agreed upon with, or appraised to any person or persons, damages for taking any land or private property for any public work in said city, and shall also have assessed betterments on account of the same public work upon the owner or owners of such land or private property, or upon such land or private property, the amount of such assessment shall be an offset against such damages; and the city treasurer may credit such owner or owners with the amount of such assessment so assessed upon or payable by him or them, and the entry of such credit upon the books of said treasurer shall have the same effect as the payment to such owner or owners so credited in whole or part payment as the case may be, of the sum appraised for such damages; but the court of common council may in any individual case, where they see fit, pay the whole of such damages and collect the assessments of betterments as heretofore.

10 S. L. 211.

5 S. L. 323.

* This is the only provision that we find giving the Common Council the power of taxation, though that power seems to be recognized in the last sentence of § 4. If printed in the connection in which it is originally found it would come between Sections 113 and 114 hereof. But there can be little doubt that it is general in its scope. In 6 S. L. 315 the "corporate powers hereby granted" would seem to refer only to powers relating to highways and public works. But the words are taken from the seventh section of the Revised Charter of 1859, 5 S. L. 321, in which the word "hereby" apparently refers to the whole charter. The intent was undoubtedly the same in 6 S. L. 315, though by the draughtsman's error that act was made a repeal and substitute rather than an amendment to section 7.

In addition to said penalty, said court may by their ordinances, subject to four-fold city taxation any building erected or added to, or removed, or located, in violation of any by-law or ordinance designed to save said city from the perils of fire, or to keep streets and public places free from encroachments and obstructions.

§ 152. Assessment, Con. After such work of sprinkling shall be completed, said board shall compute the actual

cost of such sprinkling per front foot of land abutting on each street or part of a street sprinkled. In case such actual cost shall be less than the estimated assessment per front foot referred to in section 151, said board shall make a proportionate deduction therefrom, but in no case shall such assessment per front foot be greater than the estimated assessment aforesaid. Said court of common council shall accept said report, with such amendments as it shall deem proper, provided that the assessment upon no person shall be made greater per front foot than the estimated assessment aforesaid. Said court shall fix a day upon which said assessment shall become due and payable, and shall report said assessment to the collector and said assessment shall thereupon become binding and conclusive upon all parties.

§ 154. Collection, lien. The collector shall proceed to collect all such assessments for street sprinkling from the owners of the lands assessed as soon as such assessments become due by vote of the court of common council. Each such assessment shall be and remain a lien upon such land from the first day of October of the current year, *provided*, that such assessment shall not remain a lien for a longer period than two months after the day upon which it shall become due and payable, unless within

The proscenium opening shall be spanned by an iron girder, covered with fireproof material to protect it from heat in case of fire, with a relieving arch over the same, the intervening space to be filled with brick the full thickness of wall. No fixed portion of the stage, except the floor, shall be of wood. All carpenter or property shops and wardrobes shall be separated from the stage, auditorium, and dressing-rooms by solid brick walls, with no opening to the auditorium or dressing-room divisions, and shall have fireproof self-closing doors, securely hung to the brickwork. The finish or decorative features around curtain openings shall be of fireproof material, well secured to masonry. All the scenery, curtains, and woodwork of the stage shall be thoroughly covered with a fireproof material. Wire or metallic lathing shall be used throughout the building for plastering. There shall be ample passageway adjoining each division of the auditorium.

Idem.

§ 385. Curtain. The proscenium or curtain opening shall have a fireproof curtain reinforced by wire netting, or otherwise strengthened. If of iron or similar heavy material, and made to lower from the top, it shall be so contrived as to be stopped securely at a height of seven feet above the stage floor. Such curtain shall be raised at the beginning and lowered at the end of each and every performance, and shall be operated by approved machinery for that purpose, and the curtain shall be at least three feet distant from the footlights at the nearest point.

Idem.

§ 386. Ventilators. There shall be one or more ventilators near the center and above the highest portion of the stage, equal in combined area of opening to one-tenth of the area of stage floor. Every such ventilator shall have a valve or lever so

counterbalanced as to open automatically, and shall be kept closed when not in use by a cord accessible from the stage. Such cord shall be of combustible material, and so arranged that if it is severed the ventilator will open automatically.

§ 387. Stand pipe, sprinklers, extinguishers. There shall be at least one two-inch high service stand pipe on each side of stage and to each fly-loft, each to be provided with a nozzle and a sufficient length of A1 hose to reach the opposite wall two feet above stage level and above the floor of fly-lofts. The said pipes shall have two gates, one above the other, with a proper test or waste valve, the lower gate to be kept open at all times. The proscenium opening shall be provided with a two and one-half inch perforated iron pipe, or equivalent of automatic or open sprinklers, as inspector may direct, so constructed as to form when in operation a complete water curtain for the entire proscenium opening. Automatic sprinklers shall be installed both over and under stage. two feet from the fixture. Each bath tub must be fitted with a four-inch pot trap having a one and three-fourth-inch seal. When a wash tray and kitchen sink are on the same waste pipe, they may be trapped together but the outlet must not be less than two inches in diameter.

A suitable grease trap must be placed under the sink of every hotel, restaurant, eating house, or other cooking establishment.

SEC. 34. Waste pipes from refrigerators, from safes under fixtures, or overflow from house tanks, shall in no case be directly connected with any soil or waste pipe, or with any drain or sewer.

SEC. 35. A lead pipe from two fixtures, such as sink and wash trays, or wash bowl and bath tub, shall not be less than one and one-half inches in diameter. The following sizes of lead pipes and traps shall be: water closets, four inches; slop sinks, three inches; urinals, two inches; bath tubs, one and one-half inches; basins, one and one-half inches.

SEC. 36. All vertical waste pipes shall be of iron.

SEC. 37. All connections of lead supply, waste, vent, or flush pipes shall be made by means of wiped joints, and shall be supported their entire length by means of lead tacks, or clips screwed to boards provided for the purpose.

WATER CLOSETS.

SEC. 38. Water closets must never be placed in a cellar or in an unventilated apartment. Each room or compartment must be of such size as to give at least two feet in front of the closet, and if containing a bath tub at least eighteen inches clear space in front of the tub for its entire length. It must be well lighted and ventilated to the outer air by a window of at least three square feet in area, and so arranged as to give a free opening of this size when open, or be separately ventilated by means of an approved shaft or air duct. In the latter case a suitable fixed window of at least twelve square feet in area shall be provided in the enclosing partitions, suitably arranged to admit the natural light from the adjoining room. When such room or compartment is located in or closely adjacent to a room used as a dwelling, bake shop, market, provision store, or in any case in which

escaping odors would cause a nuisance, all partitions must be made tight with lath and plaster or by such other method as may be approved by the plumbing inspector.

Closets and urinals when intended for public use shall be local vented into a hot flue, or if such flue is not available, a suitable exhaust fan shall be provided.

Lead waste connections from urinals shall in no case be less than two inches in diameter.

All water closets must be connected by a floor flange and gasket and must be leaded. Putty connections cannot be used.

SEC. 39. Pan-closets and iron hopper and plunger closets are prohibited. They will not be allowed under any circumstances and wherever removed shall not be replaced. Offset washout water closets shall not be placed in a new building, nor shall they take the place of another closet without a special permit from the Board of Health.

SEC. 40. All water closets must be supplied with an abundant flow of water for flushing, and where practicable from a tank.

VAULTS AND CESSPOOLS.

SEC. 41. When there is no sewer provided in the street, the privy vault shall be at least six feet deep, of the length and width of the privy building. The walls shall be of brick or stone, laid with a full joint of cement mortar; the bottom shall be covered with brick or stone, laid in cement mortar, and the whole interior of the vault shall be plastered with same, so as to be perfectly tight when completed. All privy vaults shall be at least fifty feet from a street or well and fifty feet from a house.

SEC. 42. A cesspool shall be provided and built in the same manner and of the same materials as described for privy vaults, except that an overflow shall be provided that may enter tiles laid under ground with open joints permitting liquids to permeate the land; provided there is no well within fifty feet of same. The cesspool shall be provided with a ventilated top and covered with a suitable opening for cleaning same. Connections with cesspool shall be made in the same manner as connections to street sewer.

TESTS.

SEC. 43. The entire system of plumbing, including lead connections and drains within the building, must be tested by filling the whole system with water, and having it remain filled for at least twenty-four hours.

SEC. 44. When the plumbing is found to stand the test for the time specified, notice shall be given to the Board of Health, whose inspector shall within a reasonable time proceed to inspect same, and approve or reject it.

SEC. 45. Any such system put in and covered before it has been tested and approved by the inspector, must be uncovered for examination at the direction of said officer.

SEC. 46. When the entire work is completed and before it is used, it must be tested with peppermint or some other practical test in the presence of the plumbing inspector, and upon satisfactory completion of said work, the Board of Health shall issue a certificate of approval.

SEC. 47. Whenever any changes are made in the plumbing or drainage of houses already erected, all new work must be done in accordance with the preceding rules.

SEC. 48. Deviations and variations from these rules will be allowed when desired, if, in the opinion of the Board, they will not be, or are not liable to become, a source of danger to the public health.

Approved, January 25, 1910.
